CT-600	Optogate PB-05 Automatic microphone gate with infrared sensor	pcs.	5	€ 260,00	Reducing the possibility of feedback from unused mics! Just plug and play...	<p>The PB-05 is an automatic microphone gate with an infrared sensor. It is the best and easiest solution for most common problems in live applications. Unwanted background noise of other instruments into unused microphones on stage are eliminated. Clarity of the mix and the dynamics will be increased due to less phase cancellation and background noise. It is plugged between microphone and cable. The infrared sensor senses if someone is in front of the microphone and switches on the microphone without any noise. Microphone will be switched off if nobody is in front of it. A red status LED indicates if the microphone is switched on. PB-05 works with 48V phantom power which passes by to microphone. Condenser microphones can be used with PB-05 without problems. It is ideal for lead and backing vocal microphones, acoustical instruments and talk back microphones.</p> <p>Specifications: Power: 24 - 48V phantom power, Current consumption: ca. 3.7 mA, Maximum input level: 3 dB (1.1V), Connectors: XLR 3-pin (1=gnd, 2=plus, 3=minus), Distance: adjustable between 15 - 120 cm, Angle: +/- 10°, Frequency response: 0 Hz - 30 kHz, -</p>
CT-602	Optogate PB-07 Automatic microphone gate with infrared sensor	pcs.	5	€ 280,00	Reducing the possibility of feedback from unused mics! Just plug and play...	<p>The PB-07 is an advancement of the automatic microphone gate PB-05 (CT-600). This model features the infrared sensor on flat side enabling a lower position on the microphone stand. It is not necessary anymore with the PB-07 that the artist is exactly in front of the microphone. The artist gains more freedom of movement in front of the microphone and microphone channel is still switched on. Microphone will be switched off if nobody is in front of it. A red status LED indicates if the microphone is switched on. PB-07 is doing a great job on speakers' desks with gooseneck microphones either.</p> <p>Specifications: Power: 24 - 48V phantom power, Current consumption: ca. 3.7 mA, Maximum input level: 3 dB (1.1V), Connectors: XLR 3-pin (1=gnd, 2=plus, 3=minus), Distance: adjustable between 15 - 120 cm, Angle: +/- 10°, Frequency response: 0 Hz - 30 kHz, - 3 dB in connection with 150 Ohm microphone impedance, Delaytime mic on: < 0.2 seconds, Delaytime mic off: about 1 second, Distance measurement: Active infrared reflection principle with 3 bit code</p>
CT-610	The smart DI Preamp with built-in microcontroller and LCD display	pcs.	4	€ 450,00	Fully adjustable signal level - No more clicking noises when switching jack plugs	<p>The new smart DI comes with a microcontroller with integrated LCD display. Compared to other DI boxes the transformerless smart DI reduces pulse responses and distortion factors.</p> <ul style="list-style-type: none"> - No more clicking noises while cabling and usage. Unused XLR out is switched off as long as no cable is plugged in. XLR out will be switched on after 0.8 seconds after cable is plugged in. - Additional footswitch allows to mute the XLR out any time - Bargraph display of in and out signals helps to set an exact output signal level - Input impedance is switcheable between 500 k-Ohm and 2 M-Ohm in order to pick up signals from high impedance sources without colouration - Smart DI works with 48V phantom power or an external 12V power supply - 5 dip switches allow toggling of switch mode, display and input <p>Specifications: Power supply: 48V phantom power or 12V DC Frequency response: 19Hz - 21 kHz (0 dB / - 3 dB) Max. input level: + 8 dBu Max. output level: + 8 dBu S/N ratio, input connected: - 65 dBu Max. signal amplification: + 7 dB Attenuation when "Mute" active: - 42 dBu</p>

CT-615	XLR Generator 48 V "Sinewave"	pcs.	10	€ 65,00	Finding faulty cables made easy	<p>The XLR generator 48 V is a top of the line solution for easy spotting of defective cables on stage. Simply plug the tester into a cable, switch on phantom power and test result is easily visible:</p> <ul style="list-style-type: none"> - LED flashes 2x: XLR Pin 2 is defective - LED flashes 3x: XLR Pin 3 is defective - No LED light: XLR Pin 1 or phantom power is defective - LED is turned on and 100 Hz sinewave noise is produced: Everything okay <p>Prior to use phantom power needs to be switched on at mixing desk. Tester checks phantom power at pins 2 and 3 before turning on the noise generator. You will not spot all problems on stage with this tool, but more than 90% of errors can be found easily.</p> <p>Output of generator is balanced. It does not need any batteries and fits into any pocket</p> <p>Tester is also available as Pink Noise generator (CT-616)</p> <p>Specifications: Connectors: Neutric XLR plug, 3 pin, 1 GND, 2 +, 3 -, Output frequency: 100 Hz sinus wave, Amplitude: about 100 mV peak - peak, Measurements: 74 x 19 mm</p>
CT-616	XLR Generator 48 V "Pink Noise"	pcs.	10	€ 68,00	Finding faulty cables made easy	<p>The XLR generator 48 V is a top of the line solution for easy spotting of defective cables on stage. Simply plug the tester into a cable, switch on phantom power and test result is easily visible:</p> <ul style="list-style-type: none"> - LED flashes 2x: XLR Pin 2 is defective - LED flashes 3x: XLR Pin 3 is defective - No LED light: XLR Pin 1 or phantom power is defective - LED is turned on and pink noise is produced: Everything okay <p>Prior to use phantom power needs to be switched on at mixing desk. Tester checks phantom power at pins 2 and 3 before turning on the noise generator. You will not spot all problems on stage with this tool, but more than 90% of errors can be found easily.</p> <p>Output of generator is balanced. It does not need any batteries and fits into any pocket</p> <p>Tester is also available as Sinewave generator (CT-615)</p> <p>Specifications: Connectors: Neutric XLR plug, 3 pin, 1 GND, 2 +, 3 -, Output frequency: 100 Hz sinus wave, Amplitude: about 100 mV peak - peak, Measurements: 74 x 19 mm</p>
CT-617	XLR Multitester 48 V	pcs.	5	€ 200,00	The world's smallest cabletester with built-in microprocessor	<p>Do not forget to bring the most versatile XLR Multitester to your next show. It shows broken wires, short circuits and wrong polarity of XLR cables on its 3 LED display. Additionally it is checked if phantom power is available on pin 2 and 3. Tester is producing a balanced 100 Hz sine wave tone if lines are okay.</p> <p>The tester is started by pressing the reset switch. Check of phantom power and starting of sine wave generator is performed automatically as long as phantom power is switched on. If there is no phantom power available tester is automatically switched into cable testing mode. To save battery power tester is shut down after 10 seconds. If accu-type batteries are used they can easily be charged using phantom power. Max. charging current is limited to 4 mA.</p> <p>Packing: Colour box</p> <p>Specifications: Power supply: 3V, 12mm cell BR1225 or CR1220 Power consumption sleep mode: < 8 uA Power consumption active mode: ca. 5 mA Connectors: Switchcraft XLR male, XLR female Measurements: 70 x 38 x 21 mm</p>

CT-618	Harting 6-bar tester	pcs.	5	€ 310,00	The world's smallest 6-bar tester with built-in microprocessor	<p>Harting 6-bar tester allows testing of 6 bars, 4 bars and single lamps. A check of functions and correct ground is performed. In contradiction to other testers containing only a few LED with resistors this device performs additional ground checks by the integrated microcontroller.</p> <p>Tester is connected to 6 bar via Harting connector and is simply started by pressing start button. Tester will perform 24 different test procedures in 0.3 seconds only and LEDs indicate the test result. LED on: Lamp okay LED off: Lamp defect LED blinks: Ground connection</p> <p>Two additional contact surface on front of tester allow to check the status of single lamps like floor spots Tester will fall into sleep mode after 6 seconds in order to save battery power Packing: Colour box</p> <p>Specifications: Power supply: 3V, 20mm cell BR2025 Power consumption sleep mode: 8 uA Power consumption active mode: ca. 15 mA Measurements: 14 x 58 x 47 mm</p>
CT-620	Mini Audio Lab Multitester for live applications	pcs.	4	€ 635,00	Mini Audio Lab - to be used as a DI-Box additionally!	<p>The new mini audio lab is a useful helper for many situations in live applications and for speaker tests after your event. Different test signals and an external phone jack connector are available.</p> <p>Functions: - Feedback frequency identification - Sine wave generator with 30 switchable ISO frequencies - Electred microphone with bargraph response on the display - Phone jack connector for music transmission from CD, MP3 or an instrument - XLR connector with switchable ground lift - 1W amplifier with NL4 connector for an easy speaker check - Pink noise and burst generator</p> <p>Packing: colour box</p> <p>Specifications: Power supply: 9V battery or mains adaptor Tolerance amplitude measuring: +/- 1.5 dB, +/- 1 Digit (50Hz - 12,5 kHz) Tolerance impedance measuring: +/- 0.5 Ohm, +/- 1 Digit Connectors: 1x 3 pin XLR, 1x NL4, 1x 9V mains daptor, 1x 6.3mm phone jack Measurements: 162mm x 88mm x 45mm</p>
CT-651	Stereo Drummer headphone DHC200	pcs.	12	€ 78,00	Bass & Snare forever...!	<p>Drummer stereo headphone DHC200 with 3m Cable and jack plug adaptor 3.5 to 6.3mm</p> <p>Perfectly suitable for use with V- and D-Drums Enhances the bassdrum and snare signal</p> <p>Technical specifications: - Driver: 40mm - Impedance: 32 Ohm +/-15 % - Sensitivity: 105 dB +/- 3dB at 1 kHz - Frequency response: 20 Hz - 20 kHz - Maximum power input: 500 mW</p> <p>Packing: Chess-Tools colour box with Euroslot</p>

CT-654	Stereo musician's headphone MHC200	pcs.	6	€ 135,00	Listen to the Music!	<p>Musician's stereo headphone MHC200, closed type incl. 2.5m spiral cable and 3.0m straight cable (exchangeable), jack plug adaptor 3.5 to 6.3mm</p> <p>Perfectly suitable for DJ's on stage and as a universal headphone for musicians and music-lovers Retractable ear cups, Collapsible design for easy transport Comes with a handy carrying and storage bag</p> <p>Technical specifications: - Driver: 50mm - Impedance: 24 Ohm +/-15 % - Sensitivity: 98 dB +/- 3dB at 1 kHz - Frequency response: 20 Hz - 22 kHz - Maximum power input: 1000 mW</p> <p>Packing: Chess-Tools Colour box</p>
CT-657	Studio headphone SHC 200, closed type	pcs.	5	€ 194,00	Excellent soundmaster!	<p>Studio stereo headphone SHC 200, closed type incl. 3.0m straight cable and jack plug adaptor 3.5 to 6.3mm</p> <p>Perfectly suitable for recording area in studios, circumaural design closes very well, even high frequencys are played back cleanly Comes with a nylon carry and storage case and replaceable ear pads</p> <p>Technical specifications: - Driver: 42mm - Impedance: 64 Ohm +/-15 % - Sensitivity: 100 dB +/- 3dB at 1 kHz - Frequency response: 10 Hz - 26 kHz - Maximum power input: 100 mW</p> <p>Packing: Chess-Tools Colour box with carry handle</p>
CT-660	Studio headphone SHO 200, open type	pcs.	5	€ 194,00	Excellent soundmaster!	<p>Studio stereo headphone SHO 200, open type incl. 3.0m straight cable and jack plug adaptor 3.5 to 6.3mm</p> <p>Perfectly suitable for control rooms in studios headphones assure neutral and clean signals at full frequency range Comes with a nylon carry and storage case and replaceable ear pads</p> <p>Technical specifications: - Driver: 42mm - Impedance: 64 Ohm +/-15 % - Sensitivity: 98 dB +/- 3dB at 1 kHz - Frequency response: 10 Hz - 26 kHz - Maximum power input: 100 mW</p> <p>Packing: Chess-Tools Colour box with carry handle</p>

CT-670	Portable stereo headphone KOSS "Porta Pro"	pcs.	24	€ 99,00	Hearing is believing!	<p>KOSS Stereo headphone "Porta Pro", open type incl. 1.2m straight cable and jack plug adaptor 3.5 to 6.3mm</p> <ul style="list-style-type: none"> - Universal headphone for musicians and music-lovers - Perfectly suitable for use on stage - Collapsible design for easy transport - Adjustable head band - Headphones assure neutral and clean signals even in bass frequency range <p>Comes with a handy carrying and storage bag</p> <p>Technical specifications:</p> <ul style="list-style-type: none"> - Impedance: 60 Ohm - Sensitivity: 101 dB SPL/1mW - Frequency response: 15 Hz - 25 kHz <p>Packing: KOSS blister card with euroslet</p>
CT-671	In Ear phone KOSS "The Plug"	pcs.	24	€ 40,00	Hearing is believing!	<p>KOSS Stereo in ear phones "The Plug" incl. 1.2m straight cable with jack plug 3.5mm</p> <ul style="list-style-type: none"> - Perfectly suitable for use on stage - Large frequency range (10Hz - 20kHz) - best value for money - Incl. replacable earplugs (different sizes) <p>Technical specifications:</p> <ul style="list-style-type: none"> - Impedance: 16 Ohm - Sensitivity: 112 dB SPL/1mW - Frequency response: 10 Hz - 20 kHz <p>Packing: KOSS blister card with euroslet</p>
CT-673	In Ear phone KOSS "KDX 100-Chrome"	pcs.	24	€ 197,00	Hearing is believing!	<p>KOSS Stereo in ear phones "KDX 100-Chrome" incl. 1.2m straight cable with jack plug 3.5mm</p> <ul style="list-style-type: none"> - Perfectly suitable for use on stage by instrument players - Large frequency range (10Hz - 20kHz) - Headphones assure neutral and clean signals even in bass frequency range - Fits tightly to ears - no falling off - Incl. replacable earplugs (different sizes) <p>Comes with a handy carrying and storage bag</p> <p>Technical specifications:</p> <ul style="list-style-type: none"> - Impedance: 16 Ohm - Sensitivity: 112 dB SPL/1mW - Frequency response: 10 Hz - 20 kHz <p>Packing: KOSS premium colour box with euroslet</p>
